DETAILED ACTION

Final Rejection

1. Claims 16-32 and 35-50 are pending. Claims 39-50 are newly added in the amendment submitted May 3, 2004. Claims 16, 31, 35, 37, 38, 40 and 45 are independent.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 16-32, 35-39 drawn to a composition for pre-treating a cellulosic or cellulose blends with synthetic fiber, and to a textile treated by said composition, classified in class 8, subclass 116.1.
- II. Claims 40-50 drawn to an activating compound, classified in class 252, subclass 102.

3. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are different compounds for treating textiles comprising different components. Because these inventions are distinct the search required for Group II is not required for Group I thus, restriction for examination purposes as indicated is proper.

4. During a telephone conversation with Anthony Bisulca on August 5, 2004 a provisional election was made with traverse to prosecute the invention of group I, claims 16-32 and 35-39. Affirmation of this election must be made by applicant

Art Unit: 1751

in replying to this Office action. Claims 40-50 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Response to Amendment

5. The rejection of claims 16-22, 26-28 and 35-38 under 35 U.S.C. 103(a) as being unpatentable over Bragg (US 4,430,243) is maintained for the reasons recited in the previous office action and further explained below.

6. The rejection of claims 29-30 under 35 U.S.C. 103(a) as being unpatentable over Bragg in view of Kravetz et al. (US 4,025,453) is maintained for the reasons recited in the previous office action and further explained below.

7. The rejection of claims 23-25 under 35 U.S.C. 103(a) as being unpatentable over Bragg in view of Chapple et al. (US 5,536,441) is maintained for the reasons recited in the previous office action and further explained below.

Response to Arguments

8. Applicant's arguments filed May 3, 2004 have been fully considered but they are not persuasive. Applicants urge that Bragg does not teach or suggest NaOH as a constituent in the composition and instead teaches its utility to hydrolyze a polymer. Although, NaOH is not taught as a separate constituent, it is not through hindsight that one of ordinary skill in the art would be motivated to formulate a composition comprising sodium hydroxide in a textile treatment bath composition, since Bragg suggests the utility of sodium hydroxide in a composition for treating textile.

Allowable Subject Matter

9. Claims 31-32 and 39 are allowable upon consideration of applicants' information disclosure statement and consideration of the prior art. The prior art most pertinent to the instant claims is Bragg (US 4,430,243). The instant claim is drawn to a composition comprising an activating compound formed of a mixture of urea and copper gluconate. Bragg does not specifically teach the claimed composition comprising an activating compound formed of a mixture of urea and copper gluconate and it would not have been obvious to one of ordinary skill in the art to treat the textile with a composition comprising an activating compound formed of a mixture of urea and copper gluconate, since the prior art teaches a peroxygen bleaching agent and a catalyst system comprising a heavy metal cation of defined bleach catalytic activity, particularly copper cations, an auxiliary metal cation having little or no bleach catalytic activity, particularly zinc or aluminum cations, and a sequestrant. None of the prior art of record specifically teach or suggest the claimed composition comprising an activating compound formed of a mixture of urea and copper gluconate.

Conclusion

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory

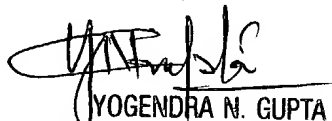

Art Unit: 1751

period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
